

## Waste Disposal

Baia del Sole | Via Aldo Moro snc | 89868 Zambrone

### Important Information on Waste Disposal

- 1 Always use a transparent bin bag — the colour does not matter, as long as it is slightly see-through.
- 2 For organic waste, please use compostable bin bags.
- 3 For glass, please use sturdy bin bags.
- 4 Waste is collected directly on the road in front of the house, usually early in the morning. Please place the relevant bin or tied bin bag on the brown box the evening before collection. Do **NOT** place waste on the ground — wild boars will otherwise tear the bags open and scatter the rubbish everywhere.
- 5 **IMPORTANT:** Organic waste must be in a biodegradable bag, which must be placed inside the "**ORGANICO**" bin. On the evening before collection, please place the closed "Organico" bin on the brown box. Never leave just the bag outside — organic waste must always be put out with the bin.

The **yellow** bin labelled "**Raccolta Multimateriale**" is for **plastic**.

The **green** bin labelled "**Raccolta Vetro**" is for **glass**.

The **brown** bin labelled "**Raccolta Organico**" is for **organic waste**.

The **blue** bin labelled "**Raccolta Carta**" is for **paper and cardboard**.

The **grey** bin labelled "**Raccolta Indifferenziata**" is for **residual waste**.
